

Çevreye dost çözümler...

Çocuklarımıza en sağlıklı şekilde yetişmeleri ve en güvenilir ürünler kullanabilmeleri için hassas ve kapsamlı bir laboratuvar çalışması sonrasında tüketici karşısına çıkmak istiyoruz.

Bizim için ürünlerimizdeki en vazgeçilmez özellik çevre dostu olmaları ve hiçbir zararlı kimyasal içermemeleridir.

Bu sebeple, MİKRO markalı ürünlerimiz aklınızda hiçbir soru işaretini bırakmayacak derecede sağlıklı ve çevre dostudur.

Environmentally friendly solutions...

We stand before our customers after the sensitive and comprehensive laboratory studies in order to ensure that our children grow up healthily and use the most trustworthy products.

The essential quality of our products is that they are environmentally friendly and do not contain any harmful substances.

Therefore, our MICRO branded products are so healthy and environmentally friendly that they do not leave any question marks in the minds.

Çok yazıldı çizildi ama bu kaliteden vazgeçilmedi...

Yazının keşfiyle değişti dünya, kalemin keşfiyle gelişti. Sanat, bilim, tarih ve güncel yaşam onun sayesinde renklendi, hareketlendi.

Biz de bugün **Şahin Kirtasiye** olarak bu heyecanın kaliteli bir parçası olmaktan gurur duyuyoruz.

Cervantes 'kalem aklın dilidir' dediğinde İspanyol Romancılığının başlangıcına imza atıyordu, belki de nele-re öncülük ettiğinin farkında değildi ama biz bu şirketi 30 yıl önce tam da bu prensipler üzerine inşa ederken nelere hizmet edeceğimize, hayalini kurduğumuz eğitimli ülkenin yapıtaşlarına ismimizi yazdıracağımıza emindik. Bu ülkenin gelecek nesillerinin kendini ifade etmesine, aklını ortaya koymasına yardımcı olmak adına büyük bir şevkle ismimize sarıldık.

Çocuklar ilk harflerini onunla yazıyor, gençlerimiz problemlerini onunla çözüyor, sanatçılar eskizlerine onun inceliğini katıyor, iş dünyası ve devlet yöneticileri en önemli anlaşmaların altına onunla imza atıyor.

Sorumluluğumuzun farkındayız ve bunun için Ar-Ge faaliyetlerine ciddi yatırımlar yaparak üstlendiğimiz misyonla bugün sektörün öncü kuruluşlarından biri haline geldik.

Şahin Kirtasiye olarak ilk gün duyduğumuz heyecanla devam ettiğimiz bu yolda, ofis ve kirtasiye malzemele-rinde dünyanın onde gelen firmalarından AIHAO ve TİKO gibi markaların distribütörlüğünü yapmakta, bunun yanı sıra kendi kurup büyütüğümüz MİKRO ve ONAS markalı ürünlerimizin üretimini ve satışını yapmaktayız. Ayrıca gerçekleştirdiğimiz ihracatlarla ülkemizin kalite imajına da katkı sağlamaktayız.

Hayatın her anında yanınızda olduk ve olmaya devam edeceğiz.

So much has been written about this, yet the quality still stands...

The world changed with the invention of writing, and developed with the invention of pens. Thanks to it, art, science, history and the daily life got colorful and lovely.

Today we, as **Şahin Kirtasiye**, are proud to be a quality part of this excitement.

When Cervantes said "pen is the language of the mind", he was about to undersign the beginning of the Spanish novel literature and was probably not even aware of what he was pioneering; yet, when we founded this company thirty years ago based on these principles, we were sure about what we will serve and that we will make history on the building blocks of the educated country we dreamt of. We launched into our business to help the future generations of this country express themselves and reflect their intelligence.

The children write their first letters with them; the youth solves their problems with them; the artists add their elegance to their sketches, the business world and the statesmen undersign the most important agreements with them.

We are aware of our responsibility and therefore, we became one of the leading companies of the sector today with the mission we undertake by making serious investments in R&D activities.

In this route we take with the same excitement we did on our first day, **Şahin Kirtasiye** distributes the world leader brands for the office and stationary materials such as AIHAO and TİKO; and also produces and sells the brands MİKRO and ONAS that we founded and grew. Furthermore, we contribute to the quality image of our country by our exports.

We have been and all along will be with you in all stages of life.
